

How To Apply Skin Extensions

1. Washing your hair using oil-free shampoo & conditioner. Dry the hair completely.

2. Using the pigtail comb, part the customer's hair as needed. Hold the top portion of the hair w/clips.

3. Compare the size of Skin Extension to the width of customer's head. (Can be used as a wide strip.)

4. Or cut the width of the Skin Extension to a smaller size for easier application.

5. Remove the backing of the Skin Extension. Apply Skin-tape onto the Skin Extension.

6. Place the tape side down on the parted area 1/2" away from the scalp. Press firmly.

7. It should look as shown.

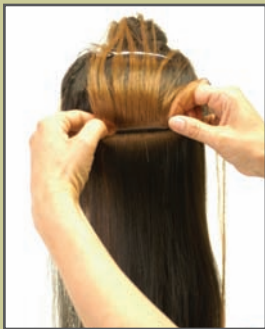

8. Using the pigtail comb, part the other side of the Skin Extension.

9. Lift the parted hair and straighten the part using the pigtail comb.

10. Secure the hair with clip. Smooth down the hair on the strip using the pigtail comb.

11. Repeat steps 5 & 6 but place the tape side facing up. Press firmly.

12. The sandwich effect will help the Skin Extension to stay on longer.

13. For longer wear, press the Skin Extension with His & Her Skin Iron in low setting.(275° or less)

14. Repeat steps # 3- #13 across the head and throughout as needed.

How To Remove Skin Extensions

1. Simply spray the remover(solvent C-22) over the taped area.

2. Gently peel away the Skin Extension.

3. If any residue remains, apply a little more of remover-solvent C-22, and comb.

4. If any residue remains on the Skin Extension, apply more of Solvent C-22 to clean it off gently.

5. The Skin Extension can be washed in cold or luke warm water and can be re-used with the Skin-Tape.
